Notes
CD: Grace Wang
Designer: Christine Lee

Notes:

Round 2 notes:

- For version 1:
    - Love the fonts and font size and text layout
    - Accent text that breaks grid is very appealing
    - Prefer this nav bar
- For version 2:
    - Prefer this color palette and vibe but could blend this with version 1 to balance it out
- Black and white color palette with subtle bright red/blue accents are super cool!

Initial build notes

- Love the individual pages and their unique colors
- I really like the header of the breakthrough taking up the whole screen. Could you apply that to each page ? (besides home)
- Could we have diff lana song instrumentals playing in background for each page? Ive done this before in a class and its not complicated to do i can help if needed!
- For the home page i like the image a lot but i think a video playing would be cooler (maybe could even do it for each sub page!
